### Why novice reduction?

Novice reduction in Kentucky is a great need based on the number of students who are scoring at this level in reading and mathematics. There are currently more than 80,000 students performing at the novice level in reading and more than 60,000 students performing novice in mathematics. This is an ethical and moral imperative for all educators in Kentucky. These are the students who struggle to meet college-career readiness benchmarks, who have potential to become a drop out, or may eventually need social services.

## TELL Winner’s Circle Schools recognized

At the Continuous Improvement Summit on September 21, ten Kentucky public schools were recognized for outstanding teaching and learning conditions. These Winner’s Circle schools were recognized for their effective teaching and school leadership practices and will be shared as models of best practices across the state. The Winner’s Circle schools were selected based upon their 2015 TELL Kentucky Survey results, school safety and student achievement scores.

- Ballard Memorial High School, Ballard County
- Earlington Elementary School, Hopkins County
- North Marshall Middle School, Ballard County
- Park City Elementary School, Barren County
- Gamaliel Elementary School, Monroe County
- Chenoweth Elementary School, Jefferson County
- Carter G. Woodson Academy, Fayette County
- Arnett Elementary School, Erlanger-Elsmere
- Allen Central High School, Floyd County
- Thomas Nelson High School, Nelson County

The full story, including those schools receiving honorable mention recognition, is located in the [KDE press release](#) from September 21.

## NBCT Reimbursement Opportunity through NT3 Grant

In [studies](#), board certified teachers are more effective than non-board certified teachers at impacting student instruction. National Board is heavily rooted in the professional practices that support growth: reflection, communicating with families, collaboration, the analysis of student work, engaging students in learning, creating a classroom community, providing equity and access for all students, demonstrating content knowledge and knowledge of students, and differentiating instruction. It’s a fact: teachers in schools without colleagues who are board-certified are **half** as likely to pursue National Board certification. To help achieve the goal outlined in [KRS 161.131](#) of having one National Board Certified Teacher in every Kentucky school by 2020, the Kentucky Network to Transform Teaching will reimburse candidates from schools without National Board Certified Teachers for up to \$275 of out-of-pocket expenses after the submission of one NBCT component, as long as funding allows and in the order [applications](#) are received. If you have any questions about this reimbursement, please e-mail [Suzanne.Farmer@ky.gov](mailto:Suzanne.Farmer@ky.gov).

## Equitable Access to Effective Educators Regional Work Sessions

As part of the Equitable Access to Effective Educators plan, districts and schools are charged with the task of analyzing their own data related to equitable access issues, determine root causes and develop solutions. An Equitable Access diagnostic must be completed as part of each Comprehensive District Improvement and School Improvement plan(s) in December of 2015.

KDE will host regional work sessions to assist districts with this process. Use this [link](#) for additional information regarding the work session, dates and locations. Regional cooperatives will be handling registration.
